Singing Valentines—On Valentine’s Day and Monday (2/15), the Midland High Meistersingers went all over town delivering over 300 singing Valentines. They delivered to homes, schools and businesses sharing their musical messages of love and friendship. This has been an annual event for over thirty years and helps to raise money for their spring trip. Kudos for sharing smiles all across the Midland community!
The Promise—By age 3, a child in a low-income household has heard about 3 million words, less than a third as many words as a child in a high-income household. For at-risk children, the achievement gap is very real, and can be seen as early as age nine months. Research shows that early language and literacy development is also a key component of school preparation. This powerful video has children asking viewers directly to join in giving them the language skills they need to succeed in their futures. Read Right from the Start classrooms are very different from traditional classrooms. Children are encouraged to talk to teachers and each other. They are engaged in conversations that allow educators to teach and draw out new words, develop new ideas and experience new things.
