

# Midland Public Schools SchoolMessenger® Parent Guide

## What is SchoolMessenger®?

SchoolMessenger® is an automated notification system that enables Midland Public Schools administration and staff to communicate with families via email, phone and/or text. It is used to notify families when there are school closings, delays, early dismissals, or other important information.

## How do I create a SchoolMessenger® account?

Once you have given your student's school your correct contact information, go to <https://go.schoolmessenger.com> and select "Sign Up". Enter your email and create a secure password. You will be asked to verify your email before logging in.

**IMPORTANT:** You must use the email address you provided to your student's school.

## Why create a SchoolMessenger® account?

You can review recent voice, text and email messages sent by the district or your student's school, manage your contact preferences, and set your mobile devices to display when new communications arrive. SchoolMessenger® may be accessed via the website or the free app, from a desktop computer or mobile device once your account has been created.

## How do I manage my SchoolMessenger® communications?

### *Text Messages:*

To opt-in to receive text messages from MPS, text Y to 68453. To opt out of text messages, text STOP to 68453.

### *Phone Calls:*

Make sure that your student's school has your correct home and mobile numbers in our database.

### *Email:*

Make sure that your student's school has your correct email address in our database.

## Additional Information

*Please contact your student's building with any phone/email changes or issues. Any changes may take 24-48 hours to be updated.*
