from other districts within the Midland County Educational Service Agency (Meridian, Bullock Creek and Coleman) and to nonresident students from contiguous intermediate
districts (Bay-Arenac, Clare-Gladwin, Gratiot-Isabella, and Saginaw).

There will be two application periods each year: from February to September for
students who wish to enroll for the new school year, and during January for second
semester enrollment. Information will be made available to parents at the end of the
first semester and the beginning of the second semester for the fall enrollment process.

As specified by law, in situations in which a special education student from a
contiguous intermediate district wishes to enroll, it is required that there be a written
agreement between the district of residence and the Midland Public Schools to specify
the responsibility for paying the special education costs for the student.

Nonresident students who enroll in the Midland Public Schools through this process

Association (MHSAA) is a private organization, and therefore, cannot be delegated
governmental authority to regulate public school athletics. However, a school district

district must then accept the responsibility to enforce these rules in the district. The
Midland secondary schools have long been members of the MHSAA.

MHSAA, which provides information on athletic changes for the 2014-15 school year,
was provided.
The administration recommended that the Board
<>Approve membership in the MHSAA for the four Midland secondary schools again
<>Adopt the rules of the MHSAA as published in its current HANDBOOK and

10. **STUDY DISCUSSION SESSION**

This portion of the agenda is utilized by the Board to introduce topics for future study, to discuss school district related matters, to complete professional association business and to relate items of interest. No action is taken during this time. Occasionally closed sessions are scheduled to discuss confidential personnel, negotiations or property matters.

10. 1. Board members expressed their …

- sincere thanks to our very generous gift donors this evening for their support.
- appreciation to those who donated toward the scholarships.
- appreciation to the Midland High students who addressed the Board and presented their viewpoints this evening.
- anticipation for Midland County’s “Exploring Our Future” and Midland Public Schools partnership in that project. This exciting initiative goes hand-in-hand with MPS making facilities plans for the next five and ten years to ensure we are strong, able and ready for the future.
- hope that students enjoying their summer and are reading and doing a few math problems every single day.

10. 2. Announcements from Superintendent Sharrow

- We thank the MHS students for their articulate presentation to the board this evening. We look forward to working with them to share how school boards and school districts work through this type of process/request.
- Facilities’ Study Update: Our architectural firm (French Associates) and project management firm (Barton Malow) have now been through all of our Midland Public Schools’ buildings and are working behind the scenes to come up with a needs/wants plan for our open and closed buildings. They will make an initial recommendation to the Board at our August 11 Board of Education meeting. We have set up three community meetings to have a discussion about what our community would support and not support for our facilities. Today’s Superintendent Communiqué included information about the age and sizes of our buildings and property. The information presented the average age of our buildings to be 61. The information also showed that the amount of square footage MPS is maintaining and handling is significant. The study will help us develop a plan to be more efficient and effectively maintain buildings with an average age of 61. We are both excited and nervous all at the same time about the study as we look forward for Midland Public Schools’ to make a commitment for a 5- and 10-year long-range plan.
- Our consultants have provided some software to assist the district with two-way communication. This Talk to me software will enable us to receive input from our various stakeholders. Initial indications look positive.
Tonight was our first Board of Education meeting using BoardBook, a new program for our board members. This tool will allow the district to move to “paperless” Board of Education meetings, have an archived record of our Board meetings and allow our office to be more efficient.
