- appreciation for the Our Schools newsletter that came out Sunday, August 16 in the Midland Daily News. This is a great way to find out what is going on in our schools.
- welcome to our new Special Services Director, Mary Laures, and our two new teachers announced at tonight’s meeting. We look forward to working with you.
- thanks to Plymouth PTO for your very generous gift presented this evening.
- excitement for the work being done with the new boilers at the middle schools as well as the removal of the modular classrooms through the bond projects. We know this is just the beginning, and we will all need patience as we work through the process in the coming years.
- excitement for the STEM visit by some of our administrators to see what is being done in other STEM schools. Thank you to Dow Chemical for helping to fund these visits.
- anticipation for the new school year to begin on September 8. We hope for a safe beginning to the new school year. It is exciting to see that fall sports are beginning.

8. 2. Announcements from Superintendent Sharrow
- In 2012 the Midland Department of Education labeled several MPS schools as Focus Schools because of the achievement gap. This week MDE notified MPS that our schools will be released because the academic achievement gap has closed and student achievement among the bottom 30% of students has improved.
- We are happy to report that we have reached a tentative agreement with our maintenance/grounds employee group—MCESPA.
- A team of MPS employees along with representatives from French & Associates and Barton Malow will be visiting Booker T. Washington STEM Academy in Champaign, Illinois in late September that was designed from the ground up as a STEM elementary. We are hoping to partner with three area universities regarding STEM education at MPS. Thank you to The Dow Chemical Company for their monetary support to make this site visit possible.
- Last week our administrative staff had a very busy week of training. They were trained on the new teacher evaluation instrument and software program—5D+. Many administrators also took part in a training called “Courageous Principals: From Insight to Action” brought to our area by Deloitte, Dow Chemical and SVSU.
- Chestnut Hill is very close to receiving their Blue Ribbon status. We are hoping to hear this fall.
